Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1-8, 23-24, 15-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite. Claim 1 appears to claim a method of operating a network access server in which a packet received at an egress port is processed via routing tables of distributing engine and forwarding engines to a desired line card. It is unclear as to the term "routing table identifier" is being referred to as "a switch fabric stream ID" or "the TCAM memory address" for retrieving routing information for the received packet to forwarding the packet to the desired line card. The same remark applies to claim 15.

Claim 15 is indefinite. Claim 15 simultaneously claims both statutory classes (an apparatus and a method). A claim to an apparatus may contain a reference to the process in which it is intended to be used so long as it is clear that the claim is directed to the product not the process.

Allowable subject matter

2. Claims 9-14 and 25-27 are allowed.

Art Unit: 2619

3. Claims 2-8, 23-24, and 16-22 would be allowable if claim 1 and 15 rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
